NARAL Pro-Choice Wyoming Education Project mailed survey forms to Wyoming pharmacies and family planning clinics in August 2017. The following entries reflect written forms that were returned to us and some information obtained afterward. Pharmacy prices ranged from \$35.00 to \$55.80 for Plan B One-Step® and from \$29.57 to \$52.50 for generics. Additional information and updates may be sent to NARAL Pro-Choice Wyoming Education Project, PO Box 271, Laramie, WY 82073 or e-mailed to naralprochoicewy@netscape.net.

Plan B One-Step®

Family planning clinic - needs to be a patient

**What is emergency contraception (also known as "the morning-after pill")?**

- Emergency contraception (EC) prevents pregnancy. EC will not disrupt an existing pregnancy.
- EC pills that contain the progestin hormone levonorgestrel (LNG) are sold as Plan B One-Step®, Take Action™, My Way™, Afters®, and others. One-pill LNG EC products are available over-the-counter (OTC) without age restrictions.
- EC pills containing ulipristal acetate are sold under the brand name ella® and are prescription only.
- EC pills work best if taken as soon as possible after unprotected sex but may work up to 5 days after.
- EC is safe for women of all ages to use.

**What are the restrictions for purchasing EC over-the-counter? Do customers need to show ID?**

- There are no age or point-of-sale restrictions on the OTC purchase of 1.5-mg LNG EC products (Plan B One-Step® and generic equivalents).
- Ulipristal acetate (ella®) is available by prescription only.
- Any woman or man of any age can purchase LNG EC products without needing to show ID.
- There is no limit on the number of packages that a person can purchase.
- A woman can get a prescription for LNG EC if she needs that for insurance reimbursement.

**Other things that are good to know:**

- LNG EC may be less effective and ella® may be more effective for women who weigh more than 165 pounds.
- LNG EC is preferable for women who need EC due to missed or late pills, patch, or ring.
